SC-DX-EC6-DT

6½" In-Ceiling Stereo Speaker

STAGE E SERIES

Enjoy a pleasant atmosphere throughout the home with natural ambient sound.

Single Stereo Design

Featuring a 6 ½" polypropylene cone woofer, dual voice coils and ½" Mylar tweeters, the DX-EC6-DT In-Ceiling Speaker is ideal for audio applications where a single speaker is needed to deliver stereo sound with reliable and consistent performance.

SC-DX-EC6-DT

6 1/2" In-Ceiling Stereo Speaker (EACH)

Features

- **6 1/2" Polypropylene Woofer**
Low Crossover points and a poly woofer that's mounted as close to the surface as possible delivers reliable and consistent performance.
- **Dual 1/2" Mylar Dome Tweeters**
Mylar dome tweeters reduce the severity of break-up modes resulting in smooth highs which are pleasing to the ear.
- **Low Profile Grill**
A thin-bezel magnetic grille ensures a secure fit, pleasing aesthetic—and with a one-step paint process, blends discreetly into any decor.
- **Easy-Grip Tweeter Bridge**
Installing speakers above your head requires a sturdy grip point and the SpeakerCraft Tweeter bridge ensures you have one. We even protect the tweeter from accidental finger pokes.
- **Precision Tooled Diffusion Baffle**
Scattered concavities reduce reflection and disperse the sound evenly for a natural room filling experience.
- **Secure Connection**
All SpeakerCraft speakers feature spring loaded binding posts that provide a secure, worry-free connection in the wall or ceiling.
- **Timbre and Performance Matched**
Expect consistent dynamic and detailed sound in every Stage E series speaker.
