Neat Grille 8,7,5

Flangeless Grille Adaptor

INTRODUCTION

Congratulations on purchasing SpeakerCraft's Neat Grilles. The Neat grilles are a two-part system. The first is a round grille bracket that installs behind the flange when the speaker is being installed. The second is the grille itself that magnetically attaches to the grille bracket covering the entire speaker flange. The result is a finished install that is grille only and less obtrusive in the room. There are three sizes covering all 8, 7 and 5-inch SpeakerCraft ceiling speakers. Just another aesthetic option from the leader in custom installed loudspeakers and electronics.

INSTALLATION INSTRUCTIONS

1. Place the plastic bracket on the speaker baffle with the magnets facing down. (Figure 1, 2).
2. Install the speaker in your ceiling cut-out and tighten the dogs.
3. If you desire to paint the grilles, gently remove the cloth material under grille (Figure 3). Place this material back in place once the grille has been painted. SpeakerCraft recommends only one light spray painting using 5 parts thinning agent to 1 part paint. DO NOT paint the grilles while attached to the speaker. If it is necessary to paint the material under the grille, follow the same procedure used to paint the grilles.
4. A thicker circular under cloth material is included with each grille. It can be used to fully conceal the woofer and tweeter behind the grille. If you choose to use it, place it by centering on the grille (Figure 4).
5. Attached the grille to the bracket (Figure 5 and 6) and you are done!
